

Performance Drug List

The **CVS/caremark Performance Drug List** is a guide within select therapeutic categories for clients, plan members and health care providers. **Generics should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand-name medicine to treat a condition. These preferred brand-name medicines are listed to help identify products that are clinically appropriate and cost-effective. Generics listed in therapeutic categories are for representational purposes only. This is not an all-inclusive list. This list represents brand products in CAPS and generic products in lowercase *italics*.

PLAN MEMBER

Your benefit plan provides you with a prescription benefit program administered by CVS/caremark. Ask your doctor to consider prescribing, when medically appropriate, a preferred medicine from this list. Take this list along when you or a covered family member sees a doctor.

Please note:

- Your specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document.
- You may be responsible for the full cost of non-formulary products that are removed from coverage.
- For specific information regarding your prescription benefit coverage and copay¹ information, please visit www.caremark.com or contact a CVS/caremark Customer Care representative.
- CVS/caremark may contact your doctor after receiving your prescription to request consideration of a drug list product or generic equivalent. This may result in your doctor prescribing, when medically appropriate, a different brand-name product or generic equivalent in place of your original prescription.
- In most instances, a brand drug for which a generic product becomes available will be designated as a non-preferred product upon release of the generic product onto the market.

HEALTH CARE PROVIDER

Your patient is covered under a prescription benefit plan administered by CVS/caremark. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is necessary, consider prescribing a brand name on this list.

Please note:

- Generics should be considered the first line of prescribing.
- This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage.
- The member's prescription benefit plan may have a different copay for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.
- Log in to www.caremark.com to check coverage and copay information for a specific medicine.

ANALGESICS

§ NSAIDs

diclofenac
meloxicam
naproxen

§ NSAIDs, COMBINATIONS

diclofenac sodium-
misoprostol
VIMOVO

NSAIDs, TOPICAL

PENNSAID
VOLTAREN GEL

COX-2 INHIBITORS

CELEBREX

§ GOUT

allopurinol
probenecid

ANTI-INFECTIVES

ANTIBACTERIALS

§ CEPHALOSPORINS

cefдинir
cefprozil
cefuroxime axetil
cephalexin
SUPRAX

§ ERYTHROMYCINS / MACROLIDES

azithromycin
clarithromycin
clarithromycin ext-rel
erythromycins
DIFICID

§ FLUOROQUINOLONES

ciprofloxacin ext-rel
ciprofloxacin tablet

levofloxacin
AVELOX
CIPRO SUSPENSION

§ PENICILLINS

amoxicillin
amoxicillin-clavulanate
dicloxacillin
penicillin VK

§ TETRACYCLINES

doxycycline hyclate
minocycline
tetracycline

§ ANTIFUNGALS

fluconazole
itraconazole
terbinafine tablet

ANTIVIRALS

§ HEPATITIS C AGENTS

ribavirin
INCIVEK
SOVALDI
VICTRELIS

§ HERPES AGENTS

acyclovir
valacyclovir

§ INFLUENZA AGENTS

amantadine
rimantadine
RELENZA
TAMIFLU

§ MISCELLANEOUS

clindamycin
metronidazole
nitrofurantoin
sulfamethoxazole-
trimethoprim

CARDIOVASCULAR

§ ACE INHIBITORS

fosinopril
lisinopril
quinapril
ramipril

**§ ACE INHIBITOR /
DIURETIC COMBINATIONS**

fosinopril-hydrochlorothiazide
lisinopril-hydrochlorothiazide
quinapril-hydrochlorothiazide

**§ ANGIOTENSIN II
RECEPTOR ANTAGONISTS /
DIURETIC COMBINATIONS**

*candesartan / candesartan-
hydrochlorothiazide*
eprosartan
*irbesartan / irbesartan-
hydrochlorothiazide*
*losartan / losartan-
hydrochlorothiazide*
valsartan-hydrochlorothiazide
BENICAR / BENICAR HCT
DIOVAN
MICARDIS / MICARDIS HCT

**ANGIOTENSIN II RECEPTOR

You may be responsible for the full cost of certain non-formulary products that are removed from coverage. Please check with your plan sponsor for more information.

FOR YOUR INFORMATION: Generics should be considered the first line of prescribing. This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. In most instances, a brand drug for which a generic product becomes available will be designated as a non-preferred product upon release of the generic product onto the market. Specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. The member's prescription benefit plan may have a different copay for specific products on the list. Unless specifically indicated, drug list products will include all dosage forms. This list represents brand products in CAPS and generic products in lowercase *italics*. Generics listed in therapeutic categories are for representational purposes only. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to www.caremark.com to check coverage and copay information for a specific medicine.

* The preferred alternative products in this list are a broad representation within therapeutic categories of available treatment options and do not necessarily represent clinical equivalency.

§ Generics are available in this class and should be considered the first line of prescribing.

¹ Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.

² An Accu-Chek or OneTouch blood glucose meter will be provided at no charge by the manufacturer to those individuals currently using a meter other than Accu-Chek or OneTouch. For more information on how to obtain a blood glucose meter, call toll-free: 1-800-588-4456. Members must have CVS Caremark Mail Service Pharmacy benefits to qualify.

³ For safety reasons, to prescribe Lotronex, the physician must be enrolled in the Prescribing Program for Lotronex. Physicians must understand the benefits and risks of treatment with Lotronex for severe diarrhea-predominant IBS, including the information in the Prescribing Information, Medication Guide and Patient-Physician Agreement for Lotronex. To enroll or for more information on the Prescribing Program for Lotronex, call toll free: 1-888-423-5227 or visit www.lotronex.com to complete the Physician Enrollment Form. CVS/caremark does not operate the websites/organizations listed here, nor is it responsible for the availability or reliability of the websites' content. These listings do not imply or constitute an endorsement, sponsorship or recommendation by CVS/caremark.

⁴ An exception process is in place for specific clinical or regulatory circumstances that may require continued coverage for one of these products: Freestyle diabetic test strips, Oxytrol and Suboxone Film. If your doctor believes you have a specific clinical need for one of these products or regulatory requirements necessitate the use of one of these products, he or she should fax an exception request toll-free to: 1-888-487-9257. Your plan may choose to provide an exception process for additional medications on this list.

Plan member privacy is important to us. Our employees are trained regarding the appropriate way to handle members' private health information.

CVS/caremark may receive rebates, discounts and service fees from pharmaceutical manufacturers for certain listed products. This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with CVS/caremark. Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

The information contained in this document is proprietary. The information may not be copied in whole or in part without written permission.
