Press Release

Macon County Reports Additional Deaths Related to COVID-19

Macon County Public Health received notification that two Macon County residents diagnosed with COVID-19 have passed away. To protect the family's privacy, no further information will be released about these individuals. These deaths bring Macon County to thirty-two (32) deaths related to COVID-19.

"We are thinking about these individuals' friends and family, and hope for their comfort as they mourn their loss," said Health Director, Kathy McGaha. McGaha continued, "Macon County's vaccination process is underway, and there are appointments available for this lifesaving vaccine for all over the age of 18. The more individuals who get this vaccine, the more likely that we will stop seeing COVID-19 deaths."

The entire state of North Carolina requires masks to be worn when social distancing cannot be maintained. Older adults and people of any age who have serious underlying medical conditions might be at higher risk for severe illness from COVID-19; however, anyone of any age can become infected with this illness. Therefore, we ask that community members **strictly follow** the governor's orders and continue to practice **social distancing**, as well as safe hygiene measures such as hand washing and frequently cleaning touched objects and surfaces. The public can monitor the different phases of re-opening and learn more about the restrictions at <https://covid19.ncdhhs.gov/guidance>.

If you believe that you may have COVID-19, please call the Health Department at 828-349-2517. The call center is open Monday through Friday from 8:00am – 5:00pm, until further notice. To register and schedule and appointment to receive the vaccine, please call 828-524-1500. The vaccine call center is open from 8:00am – 5:00pm Monday through Friday, until further notice.
